PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

A 50-acre double-secured ammunition storage area is located 6 kilometers (km) north of the center of Stanislav, adjacent to the Kalush-Stanislav rail line (Figure 1). A single rail spur serves the area. The depot (Figures 2 and 3) contains 16 storage buildings ranging from 140 by 40 feet to 150 by 30 feet. None are revetted.

A good road network connects the depot with Stanislav. The military installation there probably uses the facilities of the depot.

25X1

No change was noted in the area between

[redacted] During that time [redacted] 25X1
[redacted] missions covered the installation. 25X1

DESCRIPTION OF INSTALLATION

Railroad Service

A spur from the main line Kalush-Stanislav rail line serves the installation.

Road Service

The installation has good, dirt interior roads. A good all-weather road connects the installation with the city.

Ammunition Storage Area

Area F contains 16 ammunition storage buildings, one 140 by 40 feet, seven 120 by 35 feet, two 100 by 35 feet, three 70 by 30 feet, and three 50 by 30 feet. No earth revetments were noted.
